

- + **Do you own or work for a ICT micro-company?**
- + **Are you a freelance or sole trader willing to go next level and hire people to work for you?**

MORE ABOUT THE PROJECT

We can help you boost your company's competitiveness and sustainability by improving your "people skills" (creativity, innovation, project management, internal communication with staff, external communication with customers, co-thinking, team-work, leading others, manage the talent of your staff).

OUTCOMES

A report that will present the analysis of the learning needs of ICT micro-companies in the area of soft skills, based on the desk research and field work.

SKILLS+ DEVELOPMENT PROGRAMME

An e-learning course to train ICT micro-companies staff the needed soft skills.

SKILLS+ LEARNING RESOURCES

SKILLS+ Learning Resources will "fill in" the programme structure developed in the previous activity with the contents that will lead to soft skills development in ICT micro-enterprises.

SKILLS+ LEARNER'S AND FACILITATOR'S GUIDES

Learner's guidelines for learners that might be using the SKILLS+ learning resources independently, and will aim to advise on how to use and take maximum advantage of the SKILLS+ e-learning platform and courses.
